*Additional print formats available via special order.

Note 1: The Acroprint BP125 series are battery operated. Choose from BP125-6, BP125-R6 and BP125-12.

Note 2: Time will automatically update on the dates you set. You must reprogram the desired dates of DST change at the beginning of each year.

Note 3: External signal control requires a box, sold separately. ES900 also requires optional signal control board.
